Business, in the company's words

opening of Item 1 of the 10-K received Mar 12, 2026

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("GAAP") requires management to make use of estimates, judgments and assumptions that affect both Balance Sheet items and Statement of Operations categories. Such estimates and judgments are based upon historical experience and certain assumptions that are believed to be reasonable in the particular circumstances; however, due to the inherent uncertainties in developing estimates, actual results could differ from the original estimates, requiring adjustments to these balances in future periods.
