Business, in the company's words

opening of Item 1 of the 10-K received Jun 5, 2026

GSI Technology, Inc. ("GSI" or the "Company") is a semiconductor company pursuing a two-pronged business strategy. Our growth strategy centers on the commercialization of our proprietary associative processing unit ("APU") technology, which enables high-performance, low-power, compute-in-memory processing for artificial intelligence, high-performance computing, and search applications at the edge. We fund this development through our established legacy business designing and selling high-speed synchronous static random access memory ("SRAM") products, primarily for the networking and telecommunications, test and measurement, and military/defense and aerospace markets.
