Business, in the company's words

opening of Item 1 of the 10-K received Feb 24, 2026

We are a clinical-stage vaccine innovation company engineering high-fidelity vaccines to protect humankind from the consequences of bacterial diseases. We are re-engineering the way highly complex vaccines are made through the XpressCF? cell-free protein synthesis platform. Unlike conventional cell-based approaches, our system for producing difficult-to-make proteins and antigens is intended to develop and deliver high-fidelity vaccines with enhanced immunological benefits that are beyond the capabilities of conventional approaches. Vaccines are one of the most successful and cost-effective global health interventions and prevent millions of deaths worldwide each year.
