Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Mar 6, 2026

Via transforms antiquated and siloed public transportation systems into smart, data-driven, and AI-powered efficient digital networks. We are addressing a striking gap in the $545 billion global public transportation market. While billions of people across the globe rely on public transportation, this critical form of mobility has yet to meaningfully benefit from recent advances in technology. Buses still follow fixed routes and schedules planned years, if not decades ago, regardless of actual demand for their service.
