## Business, in the company's words

*opening of Item 1 of the 10-K received Mar 19, 2026*

We are a clinical-stage biotechnology company developing novel and differentiated medicines for patients with autoimmune and inflammatory diseases, including serious and debilitating conditions with significant unmet medical need. These diseases are often chronic, biologically complex and difficult to treat, and many patients do not achieve durable disease control with currently available therapies. Our strategy is to identify immune-mediated diseases in which translational and clinical evidence supports the role of specific biological pathways in disease pathogenesis.
