Business, in the company's words

opening of Item 1 of the 10-K received Feb 17, 2026

Environmental, social and governance matters, including regulations requiring a reduction of or that impose additional taxes or fees on greenhouse gas emissions, could adversely affect our business, financial condition, results of operations and cash flows, and an increased awareness as well as adverse publicity about potential impacts on climate change by us or other companies in our industry could harm our reputation. U.S., EU and international regulators, investors and other stakeholders are increasingly focused on environmental, social and governance (ESG) matters.
