Business, in the company's words

opening of Item 1 of the 10-K received Mar 5, 2026

Founded in 2011, CrowdStrike reinvented cybersecurity for the cloud and artificial intelligence ("AI") era and transformed the way cybersecurity is delivered and experienced by customers. When we started CrowdStrike, cyberattackers had an asymmetric advantage over legacy cybersecurity products that could not keep pace with rapid changes in adversary tactics, a dynamic that has intensified as adversaries increasingly leverage automation, identity abuse, and AI to operate at machine speed. We took a fundamentally different approach to solve this problem with the AI-native CrowdStrike Falcon cybersecurity platform, which serves as the operating system for cybersecurity.
