Business, in the company's words

opening of Item 1 of the 10-K received Feb 12, 2026

-Environmental and Regulatory Matters-Workers' Compensation and Black Lung." Our estimated total black lung liabilities as of December 31, 2025 were $36.1 million (net of the black lung trust). In future years, the DOL could require us to increase the amount of the collateral which could negatively impact our cash flows. Our failure to obtain and renew permits necessary for our mining operations could negatively affect our business. Mining companies must obtain numerous permits that impose strict regulations on various environmental and operational matters in connection with steelmaking coal mining.
