Business, in the company's words

opening of Item 1 of the 10-K received Feb 20, 2026

Tronox is the world's leading vertically integrated manufacturer of TiO2 pigment. We operate titanium-bearing mineral sand mines and beneficiation and smelting operations in Australia and South Africa to produce feedstock materials that can be processed into TiO2 for pigment, high purity titanium chemicals, including titanium tetrachloride, and ultrafine TiO2 used in certain specialty applications. Our strategy is to be vertically integrated and produce enough feedstock materials to be as self-sufficient as possible in the production of TiO2 at our seven pigment facilities located in the United States, Australia, Brazil, UK, France, and the Kingdom of Saudi Arabia.
