Business, in the company's words

opening of Item 1 of the 10-K received Mar 30, 2026

focused on identifying, developing, and commercializing innovative therapies to address significant unmet medical needs, with an initial focus on kidney disease. Founded in 2016, Unicycive was established to create a streamlined and efficient drug development platform capable of accelerating the advancement of promising therapies from discovery to commercialization. Currently, our two programs are focused on kidney disease, an area we believe we have the potential to offer medical benefit. Our initial focus is on developing drugs and getting them approved in the U.S., and then to partner with global biopharmaceutical companies in the rest of the world.
