Business, in the company's words

opening of Item 1 of the 10-K received Mar 5, 2026

In 2024, we announced a new business strategy that reflects a renewed focus on developing and marketing our AI-enabled software, edge and services offerings. This transition entailed significant operational changes during calendar years 2024 and 2025, including reduction of what had historically been the source of most of our revenue (battery resales), adjustments to the way we develop and market our products and services, and realignment of our business processes.
