Business, in the company's words

opening of Item 1 of the 10-K received Mar 13, 2026

We have developed and are commercializing products for managing animal pest populations through fertility control and population management strategies. Our current products focus on rat and mouse populations, and are known as: ContraPest, Evolve Rat, and Evolve Mouse. As far back as we can trace, rodents have been foes to mankind. Today, they remain one of the most resilient and economically destructive vertebrate pests on the planet. Rodents threaten human and animal health, food security, and infrastructure worldwide, and humanity has spent centuries attempting to mitigate the problems associated with their proliferation.
