" for additional details. As we integrate acquisitions into our portfolio of solutions, we may face new competitors in our target markets and incur increased competition from alternative solutions, which could lead to decreased demand or reduced market share for our products and services. We must maintain the quality of our products, retain longstanding relationships with major customers, continue to grow our business by establishing relationships with new customers, and continually innovate new or enhanced products and services to maintain and expand our brand recognition and market leadership position to effectively compete in the markets that we serve.
