Business, in the company's words

opening of Item 1 of the 10-K received Dec 29, 2025

." There is a risk that one or more of our technologies will not be successful in generating revenue to sustain the expenditures associated with its existence. Moreover, having multiple business segments may present challenges, such as fluctuations in our operating results, using the company's limited resources on less worthy business pursuits, and distracting management from obtaining its goals with respect to our overall operations. If we are unable to establish our technologies in the market, and overcome the challenges of doing so, we could go out of business.
