Business, in the company's words

opening of Item 1 of the 10-K received Mar 2, 2026

Our mission is to imagine and pioneer new ways to decode the biology of the proteome to improve human health. Through our product, the Proteograph® Product Suite (Proteograph), we provide researchers with unbiased, deep, rapid and large-scale access to the proteome, enabling biological discovery that has historically been impractical. With our pioneering proprietary engineered nanoparticle (NP) technology and the Proteograph Product Suite, we provide the most complete, precise, and scalable platform for deep, unbiased proteomics to power population-scale studies and data-driven biology. Proteins are the functional drivers of biology and the primary targets of most approved drugs.
