Loop Industries is a technology company whose mission is to accelerate the world's shift toward sustainable PET plastic and polyester fiber and away from our dependence on fossil fuels. Loop Industries owns patented and proprietary technology that depolymerizes no and low-value waste PET plastic and polyester fiber, including plastic bottles, packaging, and textiles such as carpets and clothing, into its base building block monomers, DMT and MEG. The monomers are separated, purified and polymerized to create virgin-quality Loop? branded PET resin suitable for use in food-grade packaging and polyester fiber, thus enabling our customers to meet their sustainability objectives.
