Business, in the company's words

opening of Item 1 of the 10-K received Mar 12, 2026

We are a biotechnology company harnessing the power of allogeneic pluripotent stem cell therapies to develop potentially curative cell therapy products for autoimmune diseases, including type 1 diabetes, or T1D, and cancer. Our beta islet, T cell and NK cell programs are allogeneic, meaning they are derived from healthy donors for use in any patient, rather than being sourced from an individual for their own specific use, as is the case with autologous T cells.
