Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Mar 31, 2026

Overview KULR designs and builds advanced battery systems for autonomous platforms, digital infrastructure, e-mobility and Space - sold as a product or delivered as service subscription. The Company addresses two primary constraints in electrification: thermal management and safety. As energy and power density increase across aerospace, autonomous machines, digital infrastructure and industrial applications, managing heat generation, current density, and propagation risk becomes essential to system reliability and survivability. KULR is establishing a fully integrated battery energy storage system design and production infrastructure in Houston, Texas.
