Business, in the company's words

opening of Item 1 of the 10-K received Feb 12, 2026

We have previously experienced constraints in the supply of our EyeQ? SoCs as the result of the global semiconductor shortage during 2021 and 2022, and future shortages in the supply of our EyeQ? SoCs or other critical parts would adversely affect our business, results of operations, and financial condition. In 2021 and 2022, the semiconductor industry experienced widespread shortages of substrates and other components and available foundry manufacturing capacity. These factors, combined with the long lead times associated with wafer production, contributed to a shortage of semiconductors.
