Business, in the company's words

opening of Item 1 of the 10-K received Apr 3, 2026

We specialize in the upfront design, testing, manufacturing, and sale of mission-critical systems for existing and emerging, high-priority missile and defense, and space programs. Our integrated payload protection, interstage and propulsion system solutions are deployed across a wide variety of existing and emerging programs supporting important Department of War ("DoW") and space sector initiatives. For the years ending December 31, 2025 and 2024, we estimate that no single program out of the more than 130 active programs in production and development that we support accounted for more than 12% of our revenue, on average, for those twelve month periods.
