## Business, in the company's words

*opening of Item 1 of the 10-K received Mar 26, 2026*

Medical Corporation is a medical device company focused on the advancement of innovative bioprosthetic (tissue-based) solutions to improve the standard of care for the treatment of venous disease. Chronic Venous Disease ("CVD") is the world's most prevalent chronic disease, impacting approximately 70% of the adult population of the U.S. Chronic Venous Insufficiency ("CVI"), is a large subset of CVD, which most often occurs when valves inside of the veins of the leg become damaged, resulting in the backwards flow of blood (reflux), blood pooling in the lower leg, increased pressure in the veins of the leg (venous hypertension) and in severe cases, venous ulcers that are difficult to heal.
