Business, in the company's words

opening of Item 1 of the 10-K received Mar 25, 2026

Nexalin is headquartered, and maintains its base of management and operations, in Houston, Texas. We design and develop innovative neurostimulation products to uniquely and effectively help combat the ongoing global mental health epidemic. We developed an easy-to-administer medical device - referred to as "Generation 1" or "Gen-1" - that utilizes bioelectronic medical technology to treat anxiety, insomnia and depression without the need for drugs or psychotherapy. Our original Gen-1 devices are cranial electrotherapy stimulation (CES) devices that emit a waveform at 4 milliamps during treatment and are presently classified by the U.S.
