Business, in the company's words

opening of Item 1 of the 10-K received Feb 27, 2026

. TNMP provides transmission and distribution services to REPs that provide electric service to consumers in TNMP's service territories. References to customers in the risk factors discussed below also encompass the customers of these REPs who are the ultimate consumers of electricity transmitted and distributed through TNMP's facilities. The profitability of TXNM's utilities depends on being able to recover their costs through regulated rates and earn a fair return on invested capital, including investments in its generating plants.
