of this Annual Report. The considerations and risks that follow are organized within relevant headings but may be relevant to other headings as well. Additional risks not presently known to us or that we currently deem immaterial may also adversely affect our business, financial condition, cash flows or results of operations. We face intense competition and may not be able to keep pace with the rapid technological changes in the medical devices industry or low-cost competitive offerings, which could have an adverse effect on our business, financial condition or results of operations. The medical device markets in which we participate are highly competitive.
