Business, in the company's words

opening of Item 1 of the 10-K received Mar 5, 2026

Our development operations or ability to acquire oil and gas properties and reserves require substantial capital. Outside of our cash assets, if we need to obtain additional capital, we may be unable to obtain needed capital or financing on satisfactory terms, which would lead to a loss in our ability to offset the natural decline in our oil, natural gas and NGL reserves, which would adversely affect our business, financial condition and results of operations. The oil and natural gas industry is capital intensive. Our future oil, natural gas and NGL reserves and production are naturally depleting resources, which in turn impacts our cash flow and income.
