Business, in the company's words

opening of Item 1 of the 10-K received Feb 20, 2026

Any new or additional regulatory, legislative, permitting or certification requirements in the U.S. and other areas in which we operate, including laws and regulations that have or may impose increased financial responsibility, oil spill abatement contingency plan capability requirements, or additional operational requirements and certifications, could materially adversely affect our financial position, operating results or cash flows. We anticipate that government regulation in other countries where we operate may follow the U.S.
