Business, in the company's words

opening of Item 1 of the 10-K received Feb 26, 2026

The Office of the Chief Financial Officer ("CFO") is relied upon to deliver timely and accurate financial reporting and business insights. The CFO role has evolved from traditional accounting processes to driving growth, profitability, and governance across the enterprise to improve business outcomes while finance and accounting teams are facing unprecedented system and process complexity, growing data volumes, and evolving regulatory requirements, coupled with expanding roles and responsibilities. As a result, digital transformation has become a top priority for CFOs, as they require powerful technology to meet these demands.
