Business, in the company's words

opening of Item 1 of the 10-K received Feb 27, 2026

We are a technology-based company with a well-established laboratory services business and a therapeutic development business. Our laboratory services business includes technical laboratory and testing services and professional interpretation of laboratory results by licensed physicians. Our therapeutic development business is focused on developing product candidates for treating a broad range of cancers using a novel nanoencapsulation and targeted therapy platform designed to improve the therapeutic window and pharmacokinetic profile, or PK profile, of new and existing cancer drugs. Founded in 2011, Fulgent began with two simple ideas: flexibility and affordability.
