## Business, in the company's words

*opening of Item 1 of the 10-K received Mar 31, 2026*

Some of our competitors have initiated clinical trials for GvHD, solid tumors and multiple myeloma, settings in which our iNKT cell therapy platform is currently being investigated. We are also aware of competitors pursuing cell therapy drug candidates, including but not limited to stem cell-based approaches, for the treatment of ARDS secondary to COVID-19. Any product candidates that we successfully develop and commercialize will compete with existing therapies and new therapies that may become available in the future that are approved to treat the same diseases for which we may obtain approval for the product candidates we may develop.
