Business, in the company's words

opening of Item 1 of the 10-K received Mar 2, 2026

We specialize in the design, manufacture, and sale of niche aerospace and defense components that are essential for today's aircraft and aerospace and defense systems. Our focus on mission-critical, highly engineered solutions with high-intellectual property content resulted in approximately 89% of our 2025 net sales being derived from proprietary products where we believe we hold market-leading positions. Furthermore, our products have significant aftermarket exposure, which has historically generated predictable and recurring revenue. We estimate that approximately 55% of our 2025 net sales were derived from aftermarket products.
