Share price, twelve months to the rescan

Split-adjusted close. Each lollipop is a rescan and carries the letter held then.

Letter at every rescan, 2012 to 2026

Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received May 27, 2026

We are a development-stage medical device company focused on advancing technologies for sensing and treating disorders of the nervous system. Our platform is designed to integrate high-sensitivity neural signal detection with targeted radiofrequency ("RF") ablation, enabling a "sense, treat, verify" approach intended to improve the precision and consistency of nerve-targeted therapies. The technology we have developed consists of a catheter-based system incorporating a proprietary microchip-enabled sensing architecture designed to detect low-amplitude neural signals from within the vascular system.
