Business, in the company's words

opening of Item 1 of the 10-K received Mar 25, 2026

We are a clinical-stage biopharmaceutical company pioneering the development of allogeneic, off-the-shelf engineered natural killer ("NK") cell therapies. Our company was founded on the belief that engineered NK cell therapies can transform the lives of patients by offering therapies that are clinically meaningful, broadly accessible and unencumbered by the safety concerns often associated with other cell therapy approaches. Our lead pipeline program is NKX019, a chimeric antigen receptor-natural killer ("CAR NK") product candidate targeting the CD19 antigen for the treatment of patients with autoimmune diseases.
