Business, in the company's words

opening of Item 1 of the 10-K received Mar 6, 2026

is a medical diagnostics company focused on improving patient outcomes in critical care settings, with a focus on sepsis. We are working on developing rapid, near-patient tests using whole blood on our Symphony technology platform ("Symphony"), which consists of an analyzer and single-use protein detection cartridges. We do not yet have regulatory clearance for Symphony, and we will need to receive regulatory authorization from the U.S. Food and Drug Administration (the "FDA") before Symphony can be marketed as a diagnostic product in the United States. We have completed the pre-clinical development of the Symphony analyzer.
