Business, in the company's words

opening of Item 1 of the 10-K received Apr 30, 2026

company focused on advancing health longevity and redefining the standard of care for age-related disease using novel therapies derived from the post-partum human placenta. The objective of extending health longevity is to meaningfully reduce the duration and severity in which an individual experiences aging-related degenerative diseases and disorders associated with increased mortality towards the end of life. Aging is known to be a major risk factor for many degenerative disorders and diseases across multiple high-value therapeutic areas, including immunology and regenerative medicine.
