Business, in the company's words

opening of Item 1 of the 10-K received Mar 5, 2026

We are a clinical-stage biopharmaceutical company pioneering differentiated therapies for the treatment of NI&I indications with significant unmet need. We target biological pathways associated with specific clinical impairments that we believe, once modulated, will demonstrably alter the course of disease. We focus on developing selective compounds targeting challenging molecular pathways and have built a portfolio of small molecule drug candidates. We believe our two clinical-stage, internally-discovered drug candidates, PIPE-791 and PIPE-307, will have broad applicability across multiple NI&I indications. We are developing PIPE-307 in collaboration with J&J.
