Business, in the company's words

opening of Item 1 of the 10-K received Mar 11, 2026

We are an advertising technology company. Our cloud-based demand side platform ("DSP") enables the programmatic purchase of advertising, which is the electronification of the digital advertising buying process. Programmatic advertising is rapidly taking market share from traditional ad sales channels, which require more staffing, offer less transparency, and involve higher costs to buyers. Our DSP is used by marketers and their advertising agencies to centralize the planning, buying and measurement of their digital advertising across most channels.
