Business, in the company's words

opening of Item 1 of the 10-K received Mar 11, 2026

Foghorn is a clinical stage, precision therapeutics biotechnology company pioneering a new class of medicines that treat serious diseases by correcting abnormal gene expression through selectively targeting the chromatin regulatory system, an untapped opportunity for therapeutic intervention in oncology and with potential in a wide spectrum of other diseases, including immunology and inflammation. The chromatin regulatory system orchestrates gene expression-the turning on and off of genes-which is fundamental to how all our cells function.
