Business, in the company's words

, above for more details. Our competitors, regardless of industry, may have greater marketing and financial resources than we have, and may be better positioned than we are in certain markets. Increased competition in our industry could result in price reductions or loss of market share, any of which could harm our business. We expect that we will continue to experience competitive pricing pressure and competition from new technologies and HCM service models, any one of which could have a material adverse effect on our business. We may not be able to keep pace with changes in technology, including as a result of AI, or provide timely enhancements to our solutions and support.
