Business, in the company's words

opening of Item 1 of the 10-K received Mar 19, 2026

Our mission is to significantly improve the lives of patients by replacing broad immunosuppression with targeted therapies. Our name, Alumis, captures our mission to enlighten immunology, and is inspired by the words "allumer"-French for illuminate-and "immunis"-Latin for the immune system. We are a clinical stage biopharmaceutical company with an initial focus on developing our two Tyrosine Kinase 2 ("TYK2") inhibitors: envudeucitinib ("envu"), formerly known as ESK-001, a second-generation inhibitor that we are developing to maximize target inhibition and optimize tolerability, and A-005, a central nervous system ("CNS") penetrant allosteric TYK2 inhibitor.
