## Business, in the company's words

*opening of Item 1 of the 10-K received Mar 12, 2026*

We are a late-stage clinical cell therapy company advancing a pipeline of proprietary next-generation autologous chimeric antigen receptor (CAR) T-cell product candidates for patients with cancer. Our goal is to fully realize the curative potential of cell therapy for patients with hematologic malignancies and solid tumors. To achieve this, we are pioneering novel approaches designed to generate T?cell therapies that drive long-lasting clinical responses. Our CAR T-cell product candidates start with the identification of promising cancer targets.
