Business, in the company's words

opening of Item 1 of the 10-K received Feb 19, 2026

If we fail to innovate in response to changing customer needs and technology developments and other market requirements, our business, financial condition, and results of operations would be materially adversely affected. Our ability to attract new customers and retain and increase revenue from existing customers depends in large part on our ability to enhance and improve our AI Analytics Platform and to introduce new products, features, and functionality. In order to grow our business, we must develop products, features, and functionality that reflect the changing needs of customers, and we believe that the pace of innovation will continue to accelerate.
