## Business, in the company's words

*opening of Item 1 of the 10-K received Mar 25, 2026*

Everpure, formerly known as Pure Storage, is a global technology company providing an integrated storage and data management platform. Data is foundational to our customers' business transformation and increasingly central to their operational resilience and competitive differentiation. As data volumes expand and artificial intelligence (AI) becomes more deeply embedded in customers' operations, the ability to store, manage, govern, and derive greater value from their data is becoming as important as the infrastructure used to store it. We began as a provider of flash-based storage systems.
