Business, in the company's words

opening of Item 1 of the 10-K received Feb 26, 2026

We are a biopharmaceutical company focused on discovering, developing, and commercializing potential best-in-class medicines for serious and rare diseases. We target therapeutic areas in which current treatments leave room for improvements in efficacy, safety, and/or dosing convenience. We believe there is significant potential in these areas, for better medicines that address unmet needs, improve outcomes, and expand treatment options for patients. We aim to develop differentiated, potential best-in-class medicines that could lead to improved patient outcomes, reduced side effects, improved quality of life, and expanded market access.
