Business, in the company's words

opening of Item 1 of the 10-K received Mar 16, 2026

We are a clinical-stage biopharmaceutical company developing a novel class of injectable therapeutics engineered to selectively engage and modulate disease-specific T cells for the treatment of autoimmune and inflammatory diseases. Unlike conventional approaches that broadly activate the immune system, our Immuno-STAT® platform is designed to selectively modulate disease-relevant T cells, enhancing efficacy while minimizing off-target effects. We believe our Immuno-STAT platform holds the promise of producing drug product candidates with the potential of establishing new standards of care in the treatment of autoimmune and inflammatory diseases.
