## Business, in the company's words

*opening of Item 1 of the 10-K received Mar 17, 2026*

We are the market leader in delivering resilient, next generation, complementary positioning, navigation and timing ("PNT") solutions designed to overcome the limitations and vulnerabilities of existing space-based Global Navigation Satellite Systems ("GNSS"), including the Global Positioning System ("GPS"). PNT services are used in nearly every facet of our economy. Cellular and electrical distribution systems depend on GPS-based timing, and the mobile app economy relies on location to create innovative services and to drive data and advertising revenue. Public safety and enhanced 911 ("E911") save lives every day with the use of location services.
