Business, in the company's words

opening of Item 1 of the 10-K received Mar 3, 2026

We are a global biopharmaceutical company dedicated to improving the lives of children and adults with spinal muscular atrophy ("SMA") and additional rare, severe and debilitating neuromuscular diseases. As a leader in the biology of the transforming growth factor beta ("TGF?") superfamily, our novel understanding of the molecular mechanisms of growth factor activation enabled the development of a proprietary platform for the discovery and development of monoclonal antibodies that locally and selectively target the precursor, or latent, forms of growth factors. Based on our innovative, proprietary, and scalable technology platform, we are building a world-leading anti-myostatin pipeline.
