Sector percentile at each rescan, stronger toward the top; facts filed by each date only.

Business, in the company's words

opening of Item 1 of the 10-K received Feb 26, 2026

We are a clinical stage global biopharmaceutical company developing novel oral small molecule therapeutics to treat a wide range of chronic diseases with unmet medical need. Our differentiated technology platform leverages both structure-based drug discovery and our expertise in computational chemistry to discover and develop small molecule therapeutics against G-protein coupled receptors ("GPCRs"). These important receptors regulate numerous and diverse physiological and pathological processes. In fact, approximately one in every three marketed medicines targets GPCR-associated pathways for the treatment of various metabolic, cardiovascular and pulmonary disorders.
