Business, in the company's words

opening of Item 1 of the 10-K received Mar 30, 2026

We are a vertically integrated, clinical-stage genetic medicines company with a broad pipeline of late-stage clinical programs, including radiation-induced xerostomia, Parkinson's disease and AIPL1-associated retinal dystrophy. Our clinical programs use targeted local delivery of small doses of genetic medicines to treat both inherited and more common conditions with severe unmet need. The successful development of the clinical pipeline is supported by our internal end-to-end manufacturing capabilities.
