Anteris is a structural heart company dedicated to revolutionizing cardiac care by pioneering science-driven and measurable advancements to restore heart valve patients to healthy function. Our lead product, the DurAVR® THV System, was designed in collaboration with the world's leading interventional cardiologists and cardiac surgeons to treat aortic stenosis - a potentially life-threatening condition resulting from a narrowing of the aortic valve. The balloon-expandable DurAVR® THV is the first biomimetic valve, which is shaped to mimic the performance of a healthy human aortic valve and aims to replicate normal aortic blood flow.
