Business, in the company's words

opening of Item 1 of the 10-K received Feb 17, 2026

In a world where data is increasingly a precious commodity and competitive differentiator, Arista was founded to enable our customers to access all their centers of data in the quickest, most reliable, and secure manner. Over the last two decades, we have emerged as an industry leader, delivering data-driven, client-to-cloud networking-as-a-service. Our "Centers of Data" strategy is a fundamental pivot from legacy networking approaches that create incongruent silos to a unified, data-driven approach in which the network is a service that interconnects four primary domains: AI Centers, Data Centers, Campus Centers, and WAN Centers.
